

Digital Image Consent

Please return to the college reception as soon as possible.

Student Name	
Registration Group	
Date of Birth	

- I/we have read the full details below and give consent to digital images of our child being used by the College for educational and illustrative purposes as follows (please tick where appropriate);

	Consent
School Publications and Displays	
School Website	
School Social Media	

By signing this consent form the parents/carers agree that this school may produce printed publications i.e. newsletters, magazines, internal noticeboards, videos and a school website, which may include photographs of students. The College may also arrange for students to be photographed by accredited photographers for use in news media or other appropriate publications such as the educational press or in educational research. The same rules would also apply to video recordings. No child's photograph will ever be taken without his/her permission and we take the issue of child safety very seriously, which includes the use of images of students.

Including images of students in school publications and on the school website can be motivating for the students involved, and provide a good opportunity to promote the work of the school. However, schools have a duty of care towards students, which means that students must remain unidentifiable, reducing the risk of inappropriate contact, if images are used in this way.

This consent may be withdrawn by contacting the Admin Office or Data Protection Officer.

Name (printed)		
Relationship to child		
Signature(s)		

We hold personal data about pupils to support teaching and learning, to provide pastoral care and to assess how the school is performing. We may also receive data about pupils from other organisations including, but not limited to, other schools, local authorities and the Department for Education. We will not share information about pupils with anyone without consent unless the law and our policies allow us to do so.
